

Has acquired the following certificate

Dienstmedaille des Perrenlands

In recognition of your three years good service in the (Auszug / Pax Mercuri / Landwehr / Voormansgardt), by order of the Council of the Concatenated Cantons of Perrenland you are hereby awarded the Perrenland Service Medal.

This medal is bestowed upon any PC who has given at least three years continuous good service to Perrenland in times of peace or war as a member of the Auszug, Pax Mercuri Landwehr, or Voormansgardt, or any combination of those martial organisations (as indicated on ROS). Discharge before the completion of three years good service precludes the award of the Perrenland Service Medal, and if already so awarded any PC subsequently dishonourably discharged will be stripped of the medal. The Perrenland Service Medal has been made retrospective to CY582, meaning any individual who has provided the requisite service since the foundation of the Auszug is eligible to receive the award.

The Perrenland Service Medal has been awarded on such a large scale within the borders of Perrenland that it provides no further benefit to any PC recipient beyond that already gained through membership of the Auszug, Pax Mercuri, Landwehr or Voormansgardt.

(actual size)

The Perrenland Service Medal consists of a silver medal approximately an inch and a half in diameter suspended from a red and white ribbon. The obverse of the medal depicts an embossed Perrenland shield device over an oak victory laurel. The reverse of the medal bears the inscription "Dritte Jaar", signifying the recipient's three years in the service of Perrenland. The ribbon in the red and white national colours features nine alternating stripes representing the nine Perrenland Cantons. When in uniform or other official or ceremonial garb, the Perrenland Service Medal is worn on the left side of the tunic over the breast to the left of any campaign medals or badges.
